STEVE REEVES one of the greatest physique culturists of all time. No other man has had such a fabulous development as this former "Mr. America" and "Mr. World." His wide shoulders and trim waist and hips give him the type physique admired by millions. Few, if any excel his beautiful 18" arms and his magnificent legs are without peer. His back is simply terrific. Steve is probably the handsomest body culturist in the world. We understand he is now training for a career in the movies. His measurements vary but his arms usually measure 18" and chest 50, thighs 27, waist around 30 and calves 18. He is 6' tall and weighs around 210 or over. He has an excellent chance of winning the 1950 "Mr. USA".
